Alex Morgan

Senior Data Analyst | dbt, Snowflake, SQL, data modelling

Rotterdam, Netherlands | alex.morgan@example.com | +31 6 0000 0000 | linkedin.com/in/alex-morgan-example

PROFILE

Senior Data Analyst in parcel delivery logistics with hands-on dbt and Snowflake experience: moved 30 reporting queries from a legacy SQL Server to Snowflake with dbt models and tests.
Uses SQL and Power BI daily, Python for data work, and data modelling with star schemas and slowly changing dimensions.
Gathers reporting requirements from operations managers and trains non-technical users. dbt Analytics Engineering Certification (2024).

KEY SKILLS

Modelling and transformation: dbt (models, tests, documentation), Snowflake, SQL (daily use, Snowflake and SQL Server), star schemas, slowly changing dimensions
Python and BI: Python (pandas, scikit-learn, matplotlib), Power BI (daily)
Stakeholder work: gathering reporting requirements from operations managers, training non-technical users
Ways of working: Git, code review, Jira, Scrum

PROFESSIONAL EXPERIENCE

Senior Data Analyst | Northwind Logistics BV, Rotterdam, Netherlands | 03/2022 – present

- Moved 30 reporting queries from a legacy SQL Server to Snowflake with dbt models and tests.
- Contributed to the design of the new data warehouse together with two data engineers.
- Own the weekly delivery-performance dashboard used by 12 depot managers.
- Run a monthly SQL training for operations staff.

Data Analyst | Northwind Logistics BV, Rotterdam, Netherlands | 09/2019 – 02/2022

- Built the depot staffing model in Python that the planning team uses each week.
- Automated the monthly KPI report, saving about one day of manual work per month (team lead's estimate).

Junior Analyst (part-time, during studies) | Kavarna Data d.o.o., Ljubljana, Slovenia | 01/2016 – 06/2017

- Cleaned and reconciled retail sales data in Excel and SQL for three client reports.

SELECTED PROJECTS

Open-source dbt package (personal project, 2025)

- Wrote a dbt package that tests freshness of shared data sources; it has 40 stars on GitHub.

EDUCATION

MSc Business Analytics | Erasmus University Rotterdam, Netherlands | 09/2018 – 08/2019

- Grade 7.8/10. Thesis: "Forecasting weekly parcel volumes with gradient-boosted trees", comparing three models on two years of depot data.

BSc Economics | University of Ljubljana, Slovenia | 10/2014 – 07/2017
